How to Use the Search Features

Sex Offender Search

There are three choices to search for Sex Offender Data: Last Name, First Name, and Street Address.

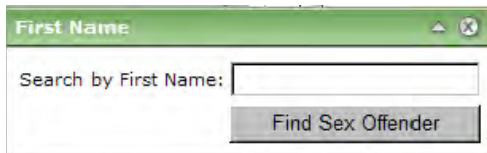

Start any of the searches by selecting the option under the **Sex Offender Search Tab**.

1. Search by **Last Name**: select and type in last name in the field provided and click the Find Sex Offender button. If any hits are returned the information will be shown in the **Results** column.

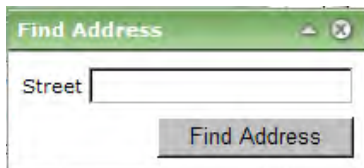

A screenshot of a web form titled "Last Name". It features a text input field labeled "Search by Last Name:" and a button labeled "Find Sex Offender".

2. Search by **First Name**: select and type in first name in the field provided and click the Find Sex Offender button. If any hits are returned the information will be shown in the **Results** column.

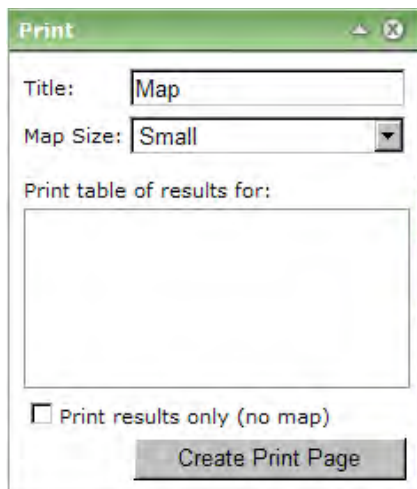

A screenshot of a web form titled "First Name". It features a text input field labeled "Search by First Name:" and a button labeled "Find Sex Offender".

3. Search by **Find Address**: enter in the street address in the field provided and click the Find Sex Offender button. If any hits are returned the information will be shown in the **Results** column.

A screenshot of a web form titled "Find Address". It features a text input field labeled "Street" and a button labeled "Find Address".

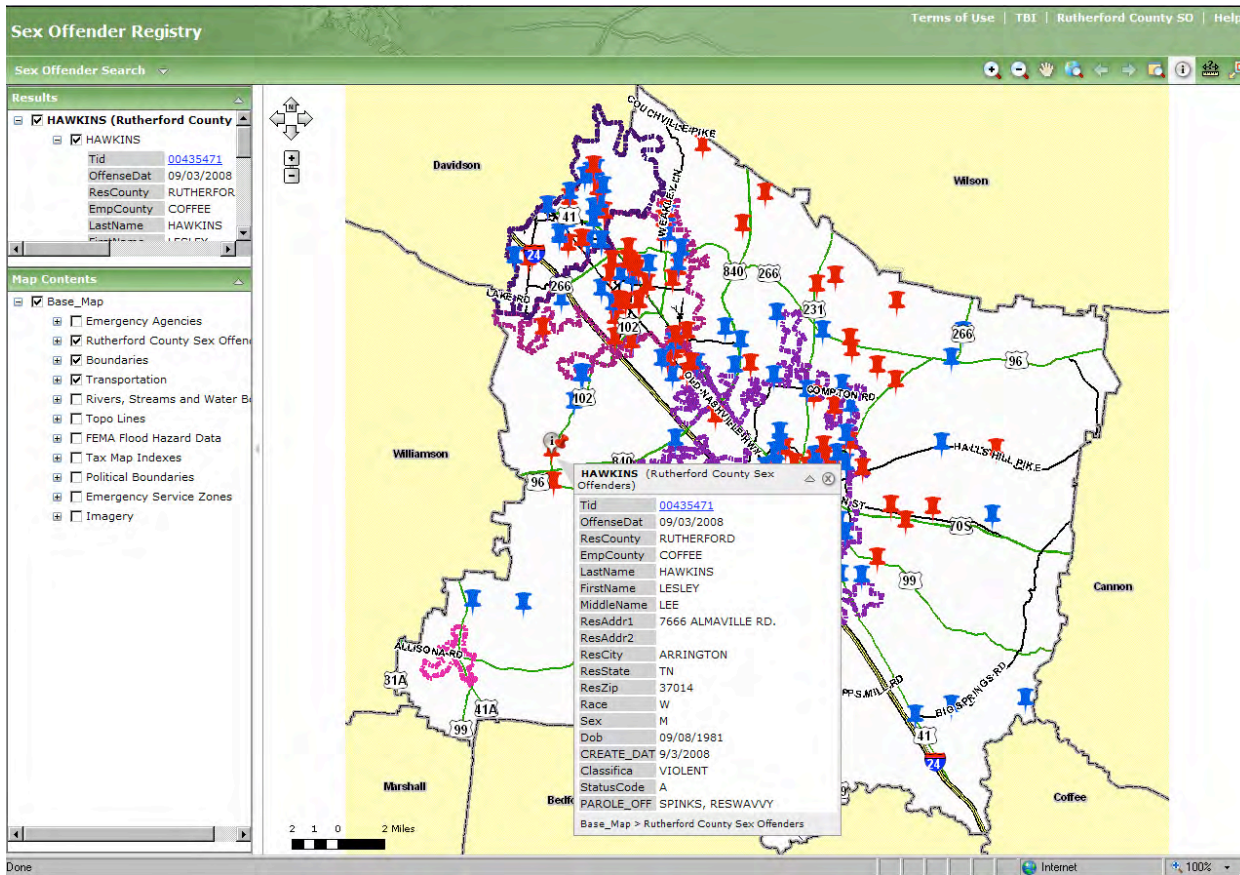

4. **Print your results**: Enter in a Title for the map, select the map size and click on the Create Print Page button.

A screenshot of a web form titled "Print". It includes a "Title:" field with the text "Map", a "Map Size:" dropdown menu set to "Small", a section labeled "Print table of results for:" with an empty box below it, a checkbox labeled "Print results only (no map)", and a "Create Print Page" button.

Results

The **Results** area shows the results of your searches or selections. Turn the selected features on or off via the check boxes. Also, from the Results Tab click on the **Tid number** to be directed to the TBI's website for more detailed information on the registered sex offender.

Map Contents

Controls the table of contents for all elements displayed in the web map application. Use the **check boxes** to turn the layers on or off. Click on the **Plus** or **Minus** signs next to each layer to view the layer's symbology.
